

DELTA TAU DELTA

Fall 2020 Newsletter

Delta Psi Brothers,

We hope you are all well and hanging in there.

Delt Update:

The Delts have been challenged by the Covid world (as all Greeks are) but are hangin' in there. There were a few positive Covid tests in Sept, but all of them are healthy now and trying to live a quazi-normal-restricted Covid college life and trying to make the best of it. The exec team is strong and virtual Rush just pledged approximately 15 new members bringing total numbers to about 45. While classes are all online, the Delt House is ~80%+ leased and they are living in their not perfect, but pretty good larger bubble. Besides a recent sewer line bust and a big re-do job there, the House and members are doing pretty good, all things considering...

The April alumni reunion on the other hand is not looking to good. Expect the next one to be in 2022.

What the Delts are up to:

Both alums & undergrads are participating in a zoom-virtual **UCSB Greek Interconnect** event Nov 14 (yes this Sat).

UCSB Greek Interconnect connects alumni and collegians, providing alums with the opportunity to give back as a volunteer and provide career perspectives and mentorship for current students in a meaningful way. Greek Interconnect also develops the UCSB Greek network and provides the opportunity for our Greek alumni to remain connected to the community that helped shape their Gaucho identity.

The Delts have 4 Alumni participating this Sat.

Healthcare:

- Kiyon Rajabi '13 (Delt Pres #2 this gen, Masters Health Tech)
- Jesus Martinez '13 (Doctor)

**UCSB GREEK INTERCONNECT
HEALTHCARE PANELIST SPOTLIGHT**

KIYAN RAJABI

Delta Tau Delta
Biochemistry & Molecular Biology '13
MS- Information Systems, HealthTech concentration
Cornell Tech '18

"I'm excited for the opportunity to connect and network with my fellow brothers and sisters. Through my time in UCSB's Greek community, I discovered many of the relationships I know will be lifelong connections. I'm very much looking forward to meeting the next generation and rekindling old friendships."

**UCSB GREEK INTERCONNECT
HEALTHCARE PANELIST SPOTLIGHT**

JESUS MARTINEZ

Delta Tau Delta
Biological Sciences '12
Georgetown University School of Medicine MD '19

"I am looking forward to sharing my experience on how I became a doctor and inspiring those in similar shoes."

Entrepreneur:

- Dave Boyajian '12 (Delt Pres #1 this gen, PureSpectrum, growth tech co, research automation/surveys)

**UCSB GREEK INTERCONNECT
ENTREPRENEUR PANELIST SPOTLIGHT**

DAVID BOYAJIAN

Delta Tau Delta
Financial Mathematics & Statistics '12

"I'm a huge fan of UCSB Greek Interconnect and look forward to contributing! I am particularly excited to connect with graduating seniors interested in joining a fast-growing software startup."

Environ / Sustainability:

- Simon Bluestone '85 (Stantec, Masters Enviro Engineering)

**UCSB GREEK INTERCONNECT
STEM & SUSTAINABILITY PANELIST**
SIMON BLUESTONE
Delta Tau Delta
Aquatic Biology and Geological Sciences '86
USF, MS-Environmental Management '92

"I am looking forward to hearing from current students about their aspirations, and sharing any relevant knowledge and advice from my own professional and life experience."

GI - Committee members:

- Britt Terrell '85
- Dylan Flanigan '17

UCSB Greek Interconnect Committee Feature

Britt Terrell

Business Development Chair

Founder, Backbone Capital

“UCSB Greek Interconnect is very interesting to me as we help UCSB Greek emerging grads have some additional perspective from Gaucho Greek alumni about life after college as they attempt to start their careers, or whatever might be their next steps in their lives. The alumni are from a variety of ages, industries and experiences, and we are all happy to try to “give some back” to this graduating generation. It’s a 2 way street of interesting dialogue and hopefully the undergrads gain insight, walk away with enhanced ideas and ideally make a few networking contacts to follow on about further potential opportunities.”

Growth & Engagement

“I'm excited to return to UCSB Greek Interconnect as a part of the team facilitating the event. Transitioning to a virtual event is exciting and expands our ability to connect alumni from all over the world. Looking forward to connecting with others and expanding my Gaucho Network across the tech industry.”

If you are interested in joining (mainly zoom, listen) and supporting your fellow Delts, you can register. All the undergrads are graduating into a Covid world and most could use some Delt alumni support, contacts, dialog, mentorship, internship, etc....

Delts trying to help and add value.

Delta Psi, DPBC Board

WHAT IS UCSB GREEK INTERCONNECT?

CONNECTS GREEK ALUMNI TO GREEK COLLEGIANS

PROVIDES GREEK ALUMNI THE OPPORTUNITY TO REMAIN CONNECTED AND SHARE WHAT THEY KNOW NOW

ALLOWS GREEK STUDENTS TO RECEIVE VALUABLE CAREER INSIGHT
