

LIVES OF EXCELLENCE

2022-2023 Delta Tau Delta, Delta Psi Chapter

The Brothers of the Delta Psi Chapter look to 2023 with much promise, bringing in a determined Executive Board and a plethora of events to look forward to. The year is off to an excellent start, as the Brothers are recently returning from the annual Big Bear trip which featured a three-story cabin overlooking the lake. There were 17 Brothers that graduated this past spring, and the Fraternity is executing its year round mission of recruitment brilliantly. Recently joining the Fraternity are the 14 new Brothers of the Alpha Mu pledge class.

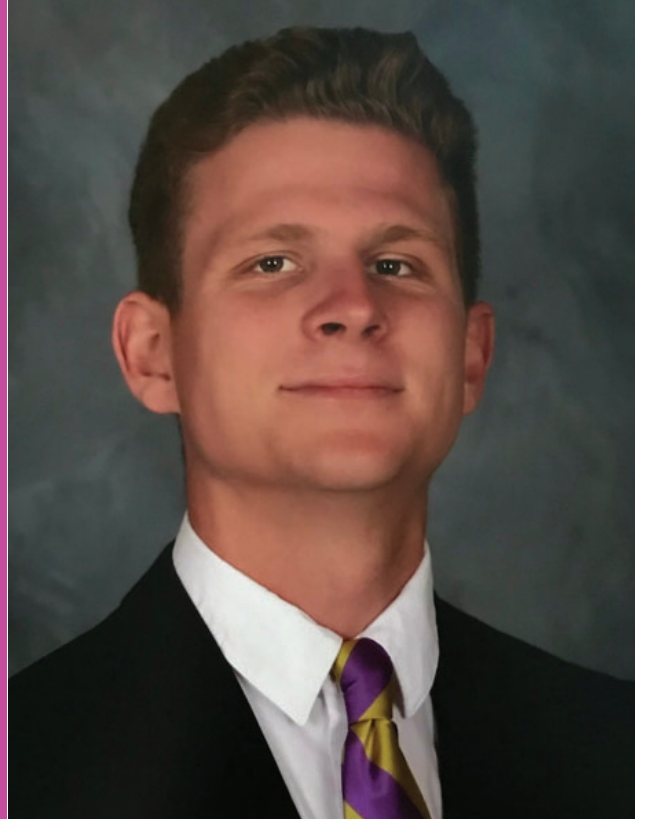

Meet the Executive Board

Leland Stilson (Pres)
Maher Nabulsi (VP)
Baylin Lavy (Treas)
RJ Rahim (Secy)
Jack Pace (SAA)
Leo Berteau (Int. Risk)
Cooper Bartoszek (Ext. Risk)
Connor Darragh (DOR)
Nate Hamilton (DOMD)
James Ellenstein (FAAR)

Brotherhood Spotlight

Logan Miller '20
Alpha Alpha PC

"It still feels like yesterday I was waking up to my Zoom graduation, with COVID uncertainties lingering and not a clue about what I wanted to do in regard to a job, like most scared college graduates. I knew that I wanted to work with people (mainly sales) and contribute to something I can feel proud to be a part of. Fast forward a few months and my fellow Delt brother Arie Van Hof Wagen lets me in on a little secret about a job opening at this amazing Aerospace company in Santa Barbara and I thought to myself "why not?" Fast forward a few more months and now we arrive at where I am now. For the past 1.5 years I have proudly been serving as an Account Executive for IPT (Integrated Procurement Technologies), a military defense partner providing supplies, material, and services to international and domestic Governments. This is easily the greatest job I have ever and probably will ever have. Through this leap of "why not?" thinking, I have established a promising career, found a sense of community, and grown as a person. I encourage all undergrads and graduates who may not know what field they want to enter to try new things, get uncomfortable, and take a chance on something foreign to them; it's all an adventure.

All things considered; I have learned three major keys since graduating. The first is that whoever you love and or consider family, must be made a priority in life. This is all a short little experience, and we should be celebrating and creating memories when we get the chance. The second key is to find your passion and set goals for yourself - be ambitious! The last key is to work hard but play harder; enjoy yourself! RAH RAH!

See you all at Alumni Weekend!"

"After graduating UCSB, I became employed by KARL STORZ Imaging as a level II Supplier Quality Engineer. KARL STORZ is a Germany-based global manufacturer of endoscopes, medical instruments, and devices, where my work is heavily focused on Quality Assurance and Mechanical/Manufacturing Engineering. My role has grown over the past year, I now coach/manage the company softball team and have attained certification as an ISO 9001:2015 QMS Lead Auditor, ISO 19011:2018 Leading Management System Audit Teams, and MDR 2017/745 Auditor. On weekends I am a Tasting Room Associate at Sunstone Winery in Santa Ynez pursuing a sommlier level 1. I am also a part-time personal assistant to a blind senior citizen."

Bailey Smith '21

"I was in the Pledge class Alpha Epsilon (was the only pledge). Now I work for PriceWaterhouseCoopers (PwC) as an auditor. Along with working for the firm, I coach Varsity football for Chatsworth High School and got my CPA license. I still love coming back to Santa Barbara and hanging with all the brothers, especially my little Maher Nabulsi and Ben Diaz. Planning to come back for some accounting recruiting events in the spring to represent PwC along with some of my fellow alumni associates so looking forward to meeting you and seeing the house again!"

Save the Date

**Alumni Weekend
will be taking
place on April
28-30th. Stay
tuned for more
updates!**
